Nurturing Connections

Supervised Visitation Program

Our **Nurturing Connections Supervised Visitation Program** provides on-site supervised visitation at the PRC on Wednesdays and Saturdays for enrolled families. During these visits, the center is closed to the public and families have private use of the space.

The Nurturing Connections staff are specially trained to encourage positive parent-child interaction, provide informal parent education, and facilitate the growth of family relationships.

The center's space provides a welcoming atmosphere for adults and young children. Toys, crafts, and special areas for reading, writing and STEM activities promote positive, playful relationships. Comfortable adult seating and free coffee are also available to families.

Participating families also receive free parent education classes to help nurture their parent-child relationship.

Note: Intakes need to be completed and a court order needs to be on file before visits can begin.

2. Find a start date that works for everyone

Both parties will agree to a start date and time that suits the needs of everyone. Please keep in mind that there may be a waitlist for our program.
